IE 8990 Distributed Machine Learning Techniques
Assignment 4
Due: 11/15/2021 11:59 PM

Use the **Advertising.csv** file to answer the following questions:

Question 1: Check if there is any missing value in the dataset. Perform some basic exploratory data analysis.

Question 2: Using Sales as your predictor variable, implement at least **<u>Eight</u>** different regression techniques on the Advertising dataset.

Question 3: Make a comparison of the prediction performance of the different algorithms implemented on **Question 2**.
